

ALEX FERNANDO

SOFTWARE ENGINEER

Colombo, Sri Lanka | +94 7X XXX XXXX | alex.fernando@example.com
GitHub: [your GitHub URL] | LinkedIn: [your LinkedIn URL]

PROFESSIONAL SUMMARY

Software engineer with one year of professional experience building web applications using React, Node.js and PostgreSQL. Experienced in REST API development, automated testing and Agile teamwork. Seeking to contribute reliable, maintainable software to a collaborative engineering team.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Frontend: React, HTML5, CSS3, responsive design
Backend & databases: Node.js, Express, REST APIs, PostgreSQL, MongoDB
Tools & practices: Git, GitHub, Docker, Postman, Jest, CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Example Software (Pvt) Ltd

Colombo, Sri Lanka | September 2025 - Present

- Developed and maintained React interfaces and Express APIs for an internal recruitment platform used by a 12-person HR team.
- Improved candidate-search response time by 30% through query optimization and database indexing, measured in staging benchmarks.
- Added 35 unit and integration tests covering candidate validation, authentication and application-status changes.
- Collaborated in two-week sprints, reviewed pull requests and documented API endpoints for frontend integration.

SELECTED PROJECTS

Recruitment Tracker | React, Node.js, PostgreSQL

- Built a full-stack application to manage vacancies, candidate profiles, interview schedules and application stages.
- Implemented role-based access, input validation and a searchable dashboard; automated tests with GitHub Actions.

Inventory Management API | Python, FastAPI, PostgreSQL

- Created REST endpoints for products, stock movements and reorder alerts, with pagination and structured error responses.
- Packaged the application with Docker and documented setup instructions and API examples for local deployment.

EDUCATION

BSc (Hons) in Computer Science

Example University, Sri Lanka | 2022 - 2025

Second Class Upper Division

Relevant modules: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Software Engineering.
